

KY+ SAFETY GREASE COUPLER

Macnaught's patent pending release mechanism delivers enhanced safety and is both easier and faster to use. The KY+ retains the benefit of the original floating jaw design, providing a strong, leak-free connection while improving safety and usability through:

- Internal pressure relief that reduces the risk of high pressure grease release.
- **Click on-and-off** connection reduces hydraulic bind and high pressure

Quick & easy release mechanism

Patent pending* smart release mechanism enables effortless one handed **click on** and **click off** release up to 10,000psi.

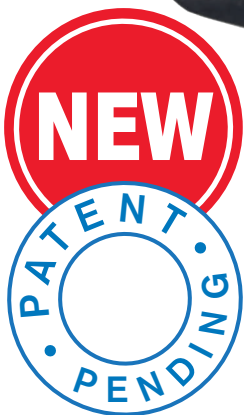

Original KY floating jaw
Unique floating jaw operation creates a powerful grip as pressure builds to enhance performance.

Superior safety

Smart release mechanism features an internal bleeding system for soft pressure relief and safe disconnect of the coupler up to 10,000 psi.

Compact design

The compact body of the KY+ makes it easier to get into tight spaces.

"Click On" To Engage Fitting: Pull Handle Back and Release - Place on Fitting

"Click Off" To Disengage Fitting: Pull Handle Back and Release - No need to pull !

FEATURES & BENEFITS

- Superior safety from internal pressure relief
- Compact design for greater accessibility
- Patent pending* release mechanism for easy disconnect under pressure
- Original floating jaw design for leak free grip

TECHNICAL SPECIFICATIONS

- Built-in hydraulic pressure relief
- 1/8" NPT(F) inlet
- 10,000psi max pressure
